

The Nursery Group – Member Profile

Creswick Nursery

Creswick Nursery is a division of Ballarat Regional Industries Inc (BRI). BRI is a viable manufacturing, training and service industry which provides satisfying employment and multi-skilling opportunities for people with disabilities. BRI acquired the former Vic Flora nursery in 1995. We are a large production, wholesale and retail nursery. The nursery is open 7 days a week.

Located in the Central Highlands of Victoria, the nursery was established in 1888 to produce plants to revegetate land cleared for gold mining during the 1850's – 60's. Most of the seedlings produced at Creswick were conifers and the nursery became Victoria's main supplier of plantation species. Over the years native species were introduced and today the nursery produces more than 200 species of native trees, shrubs and understorey plants annually.

Creswick Nursery currently has 18 supported employees and two specialist staff .

Creswick Nursery supplies quality native tube-stock at affordable prices with an emphasis on species suitable for specific purposes such as shelter belts, wildlife habitat, wood lots, salinity and erosion control, agroforestry and riparian plantings.

Creswick nursery also caters for the home gardener and landscapers. We stock a comprehensive range of native and exotic garden plants, fruit and ornamental trees and garden products. We also offer a garden consultancy/design service and undertake domestic garden installations.
