

## **The Nursery Group – Member Profile**

### **Lismore Challenge Nursery**

The nursery operated by Lismore Challenge is not a fully fledged operational nursery at this stage however we do have plans to develop it to such a level.

The turnover of the nursery would not be \$10k p.a. at present and we do not dedicate staff to working in it on a full time basis. It is more of a back up for our landscape maintenance crew when they cannot work on site etc.

As such it is difficult for me to send you a profile when we really don't have one to write about.

However we are very interested in becoming part of a group such as you propose, which we would expect would expose us to potential customers, industry contacts and secure us purchasing power.
